

Changing elements status via commit message

Table of Contents

1. How?	1
2. An example, please!	1
3. And where're the available statuses defined?	1

The status of any issue, task, user story or epic can be changed via commit message.

1. How?

Just add to your commit message something like:

```
TG-REF #STATUS-slug
```

- **REF**: US/Issue/Task reference of the element you want to modify
- **STATUS**: New status slug to set.

2. An example, please!

```
TG-123 #closed
```

In this example, **123** is an issue reference and with this command, the issue will change its status to **closed**.

3. And where're the available statuses defined?

If you are the project admin you can manage the statuses attribute in the admin pane: **Admin > Attributes > Status**. You can find all of them for stories, tasks and issues

[Manage Statuses inn the project admin panel] | [imgs/statuses_panel.png](#)
